SunGard Certified for Trading Connectivity to the Singapore Commodity Exchange

Singapore – May 20, 2010 – The Singapore Commodity Exchange (SICOM) has certified SunGard's [GL Stream](#) gateway for connectivity to its markets. SunGard's GL Stream gateway solution provides trading and market data gateways for worldwide markets across major asset classes, including access to emerging electronic markets. With this certification, SunGard can now deliver market data and trading access to the SICOM exchange for both local and international brokers.

Jeremy Ang, chief executive officer of SICOM, said, "We welcome SunGard's connection to SICOM. SunGard's GL Stream gateway software and network connectivity will give our market participants another choice for direct and efficient access into our commodity platform, as commodities continue to attract investor interest."

Yassine Brahim, president of SunGard's global trading business, commented, "Facilitating electronic trading in countries where the financial communities are enhancing their IT infrastructures is a key part of SunGard's trading strategy. With this certification, any customer who wants to trade at SICOM will be able to leverage SunGard's GL Stream market access gateway and trading platform for execution of SICOM contracts. This will help create more options for SICOM brokers to trade in their marketplace, as well as greater convenience for existing SunGard customers to trade on a new venue using their current trading platform."

About Singapore Commodity Exchange (SICOM)

SICOM, a company of Singapore Exchange (SGX), is Singapore's marketplace for the trading of commodity futures and regulated by The Monetary Authority of Singapore. SICOM is the world's price discovery centre for natural rubber with its two key rubber contracts - Ribbed Smoked Sheet (RSS) 3 and Technically Specified Rubber (TSR) 20 rubber futures contracts.

Positioned as a premier commodity trading hub in Asia, SICOM is expanding its product offering, with the recent launch of a Gold Deferred Settlement contract and a Robusta Coffee futures.
